

How to live share on Visual studio code

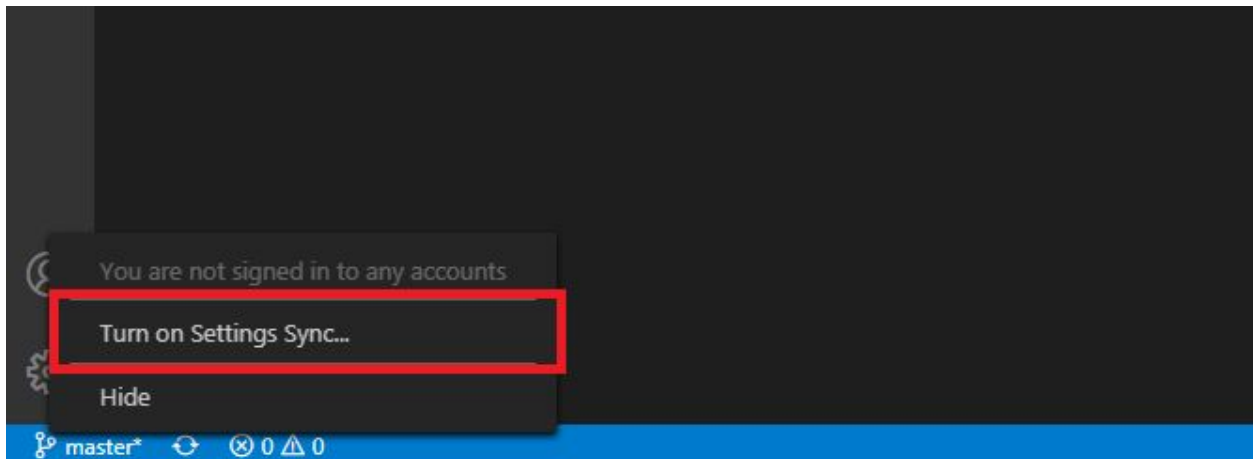

Make sure firstly you are logged in.

The following step must be useful to log in:

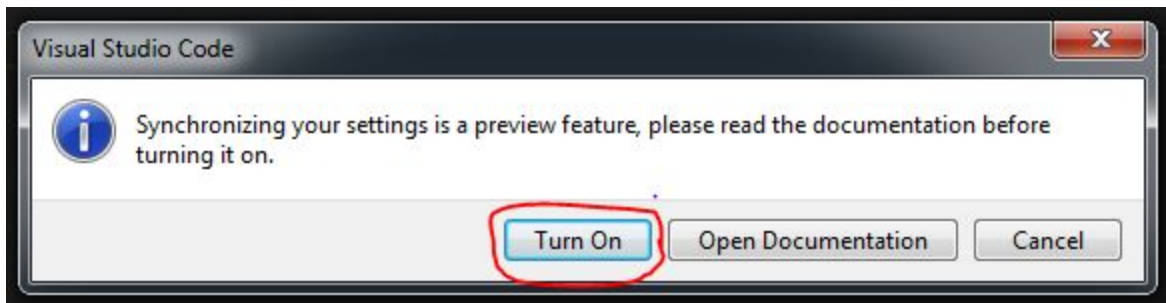

Step 1: In VSC

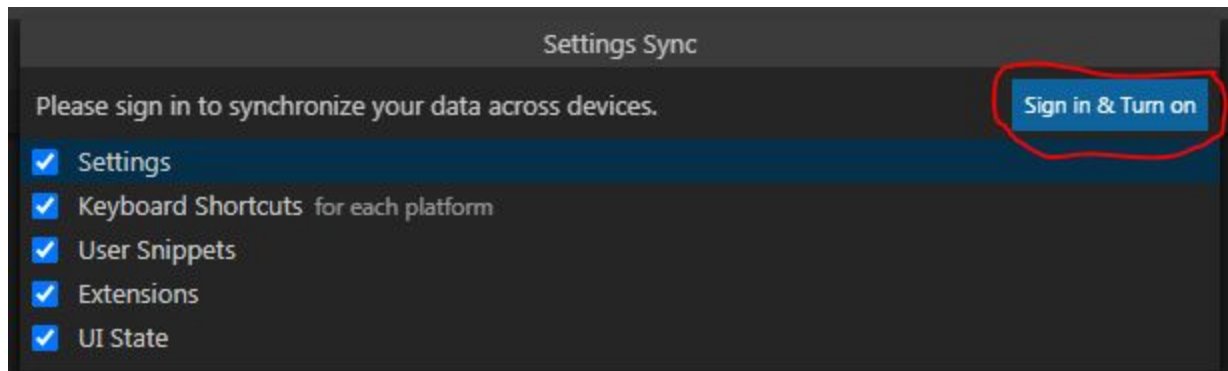

Step 2:

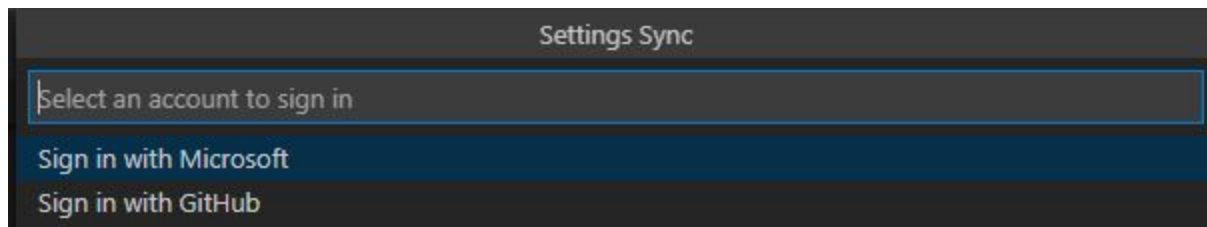

Step 3:

Step 4:

Step 5: (Suggested Github because the teacher and the student have worked with Github in previous classes, make you are logged in to Github before selecting here. When you click on Signin with Github will open your default browser)

Step 6: (Login through Github)

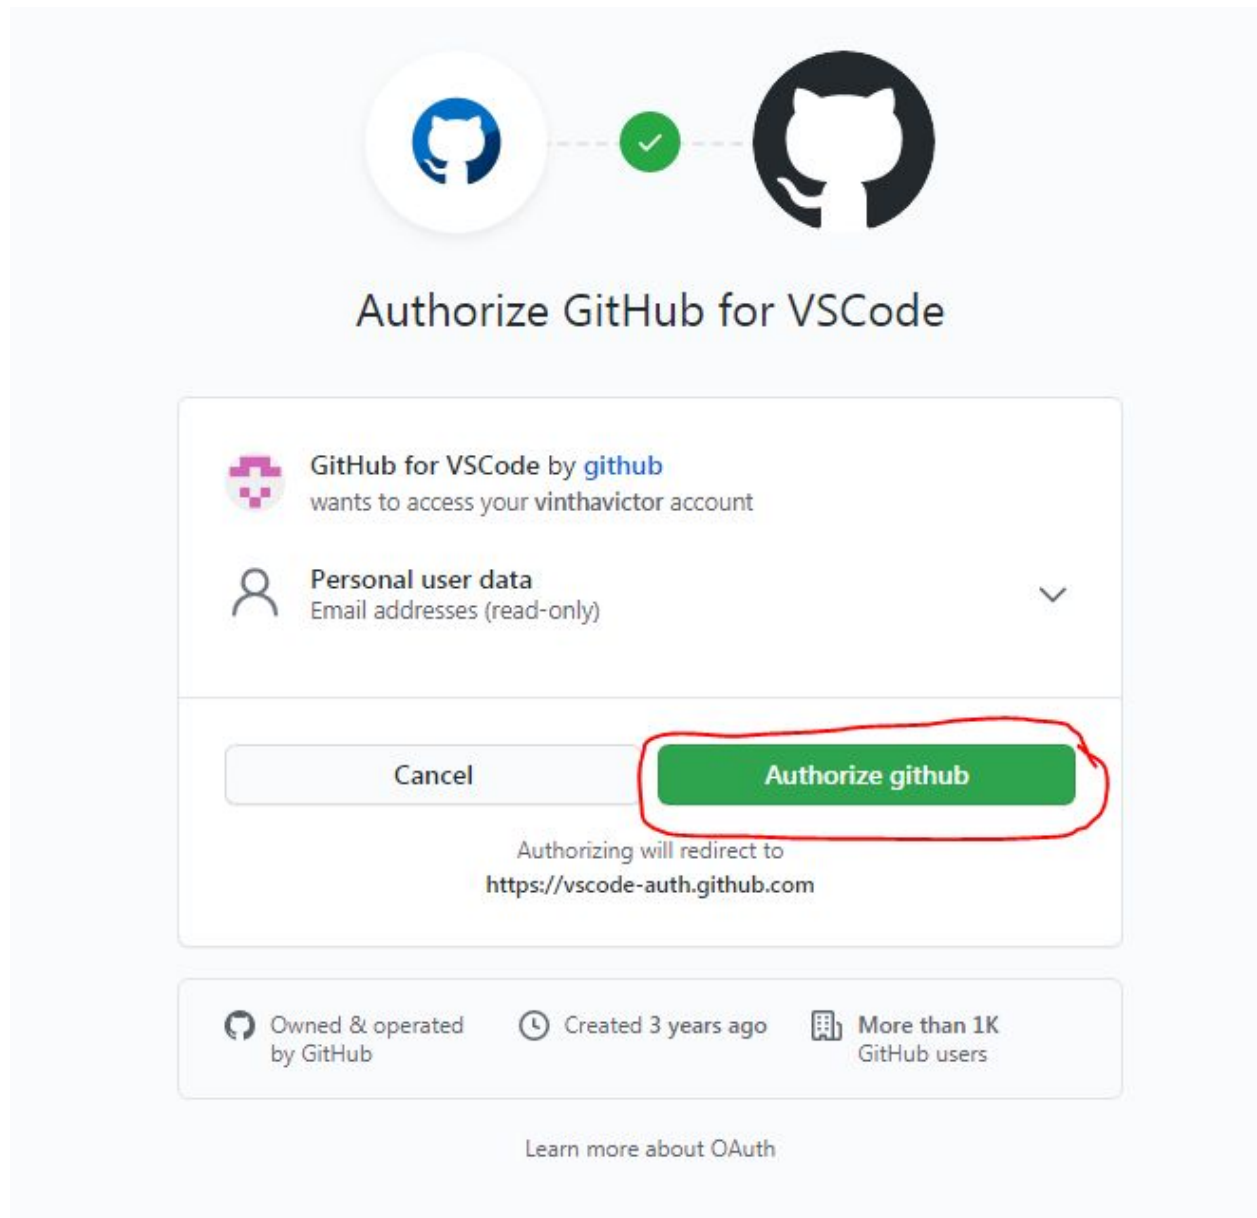

Authorize Visual Studio Code to access GitHub

If you initiated this authorization from Visual Studio Code, click 'Continue' to authorize access to GitHub

Step 7: (Default Browser)

Step 8: (Default Browser)

Open URL:vscode?

https://vscode-auth.github.com wants to open this application.

☐ Always allow vscode-auth.github.com to open links of this type in the associated app

Open URL:vscode Cancel

Success!

Authorization was successful. You will be redirected back to Visual Studio Code

Didn't work?

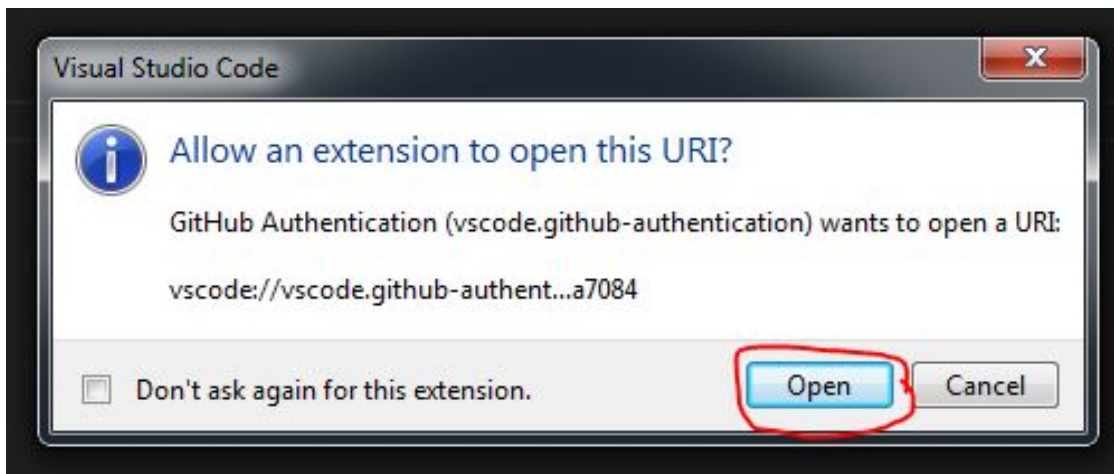

If you aren't redirected, you can add the token manually.

Your authorization token:

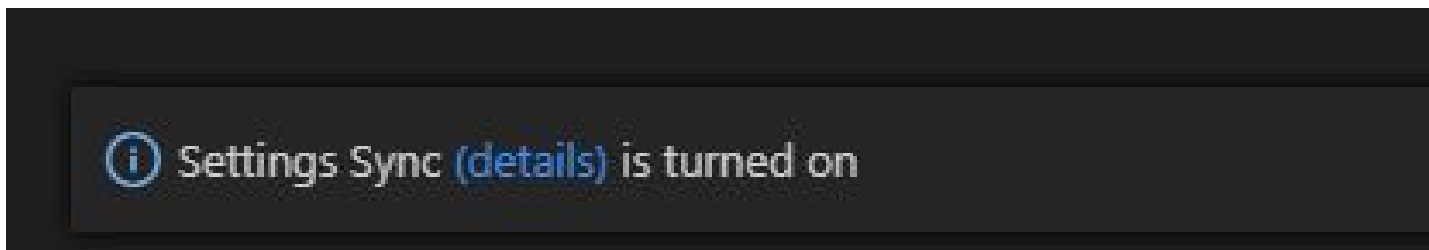

```
vscode://vscode.github-authentication/did-authenticate?windowid=1&code=44e4d6fad01465f0d4fd&state=6e857c8f-4f26-4dcc-84d4-f318974a7084
```

1. Copy the token.
2. Switch back to VS code.
3. Click **Signing in to github.com...** in the status bar.
4. Paste the token and hit **enter**.

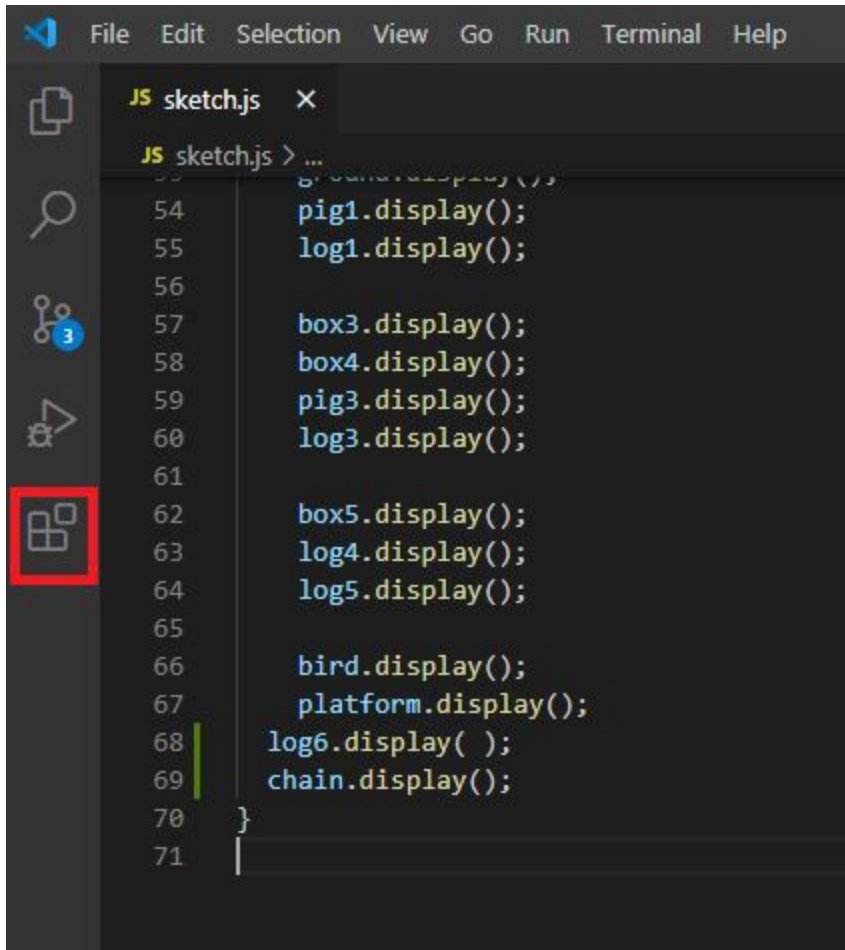

Step 9: (In VSC)

Step 10: (Confirmation message on the bottom right of VSC)

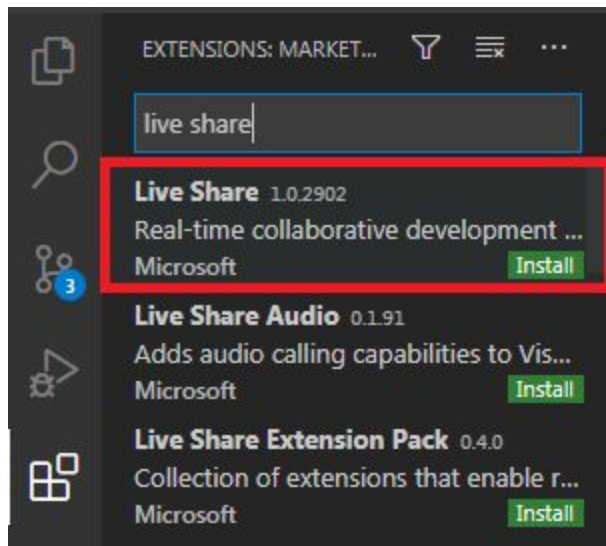

Step 11: (In VSC)

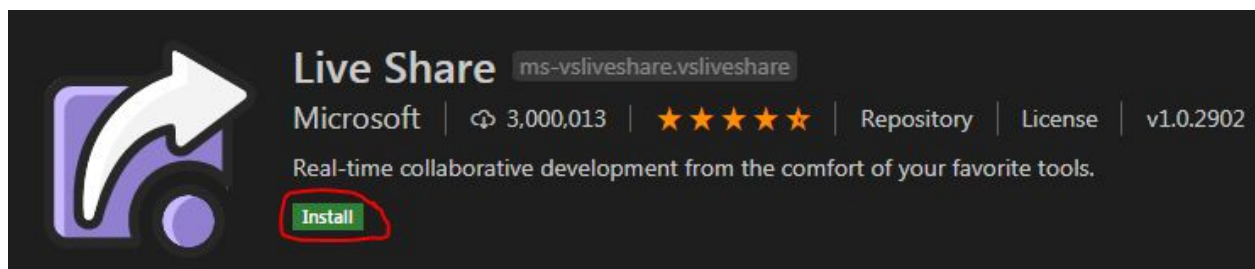

```
File Edit Selection View Go Run Terminal Help

JS sketch.js X
JS sketch.js > ...
53     g.canvas.display();
54     pig1.display();
55     log1.display();
56
57     box3.display();
58     box4.display();
59     pig3.display();
60     log3.display();
61
62     box5.display();
63     log4.display();
64     log5.display();
65
66     bird.display();
67     platform.display();
68     log6.display( );
69     chain.display();
70 }
71
```

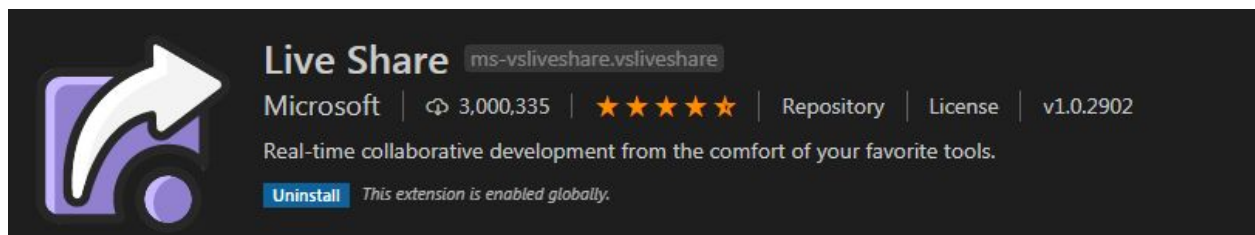

Step 12: (In VSC)

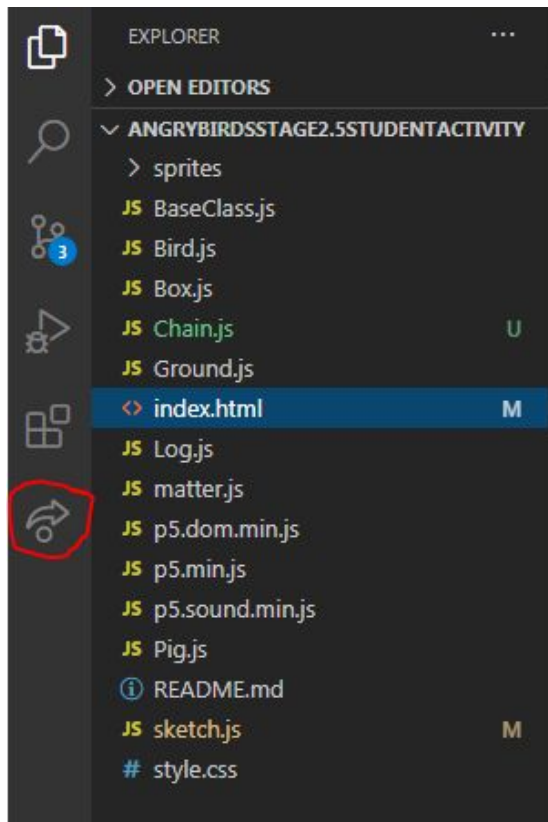

Step 13: (In VSC)

Step 14: (In VSC when Live Share installed)

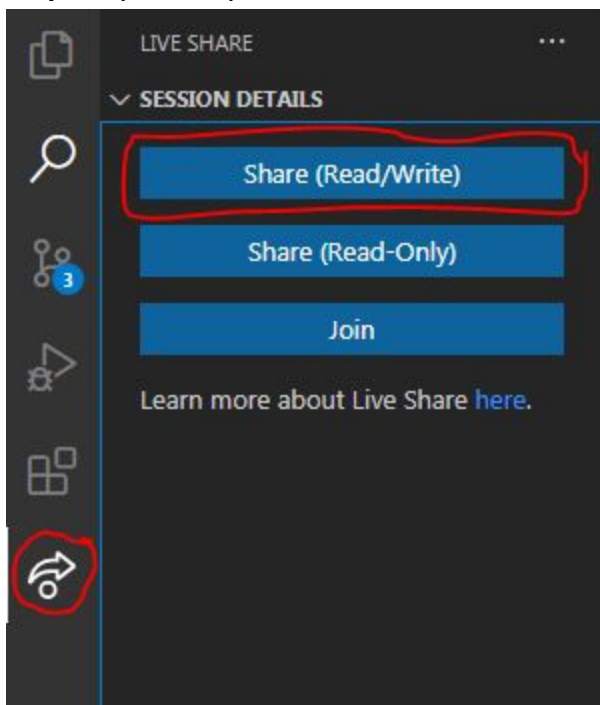

Step 15: (In VSC, once installed you'll get the extension added in your menu)
